

Fino Mornasco, 3<sup>rd</sup> February 2012

Dear Parents

During the past few days the snow has caused some disruption for many of you and attendance at school has naturally been affected by the poor weather conditions.

Consequently, I am writing to clarify the ISC policy on these matters so that you will know how the school intends to act in future cases.

- ISC aims to keep the school open whenever possible so as to provide a service to those families who have no alternative child care available.
- We cannot guarantee regular activities and lessons for students who come to school in these conditions as some staff may also have difficulty in traveling. However, even if we have to utilize a modified timetable we always aim to ensure that students who come to school will have meaningful learning experiences, while not penalizing those who cannot reach the school campus for a day or two.
- If conditions dictate that we have no option other than to close the school, we will always send you an e-mail and put an announcement on the school web site, in the News section, or on the school Facebook page.

Sincerely  
E. Ferloni  
ISC Principal
